

Wedding Wedge Launches to Give Couples a Smarter Second Look Before the Wedding "Yes"

New AI-assisted wedding planning platform helps couples spot cost surprises, compare vendor quotes, and ask better questions before they book, sign, or pay.

POMPANO BEACH, FLORIDA U.S.A., May 6, 2026 - Every wedding begins with excitement, but many couples soon find themselves making expensive decisions while sorting through unfamiliar terms, package details, payment deadlines, and pressure to secure the date.

Wedding Wedge helps engaged couples take a smarter second look at venues, vendor quotes, contract terms, guest count concerns, added costs, and planning details before making major wedding decisions.

Designed for couples planning local, destination, resort, hotel, villa, and all-inclusive weddings, Wedding Wedge supports wedding planning research across 249 countries and more than 165,000 locations worldwide.

Through AI-assisted review, Wedding Wedge helps turn venue details, vendor quotes, and contract terms into clearer questions, easier comparisons, and better-informed next steps.

The goal is simple: help couples avoid the expensive "we did not realize that" moment.

Wedding Wedge is not legal advice and does not replace a planner, attorney, venue coordinator, or financial advisor. It helps couples arrive at those conversations better prepared.

Media and Influencer Preview Access

Bridal editors, wedding media, bloggers, creators, and producers are invited to experience Wedding Wedge firsthand through complimentary preview access. To request access, visit WeddingWedge.com/press-contact/.

About Wedding Wedge

Wedding Wedge is an AI-assisted wedding planning decision platform that helps engaged couples review venues, vendor quotes, contract terms, guest count concerns, added costs, and planning details before making major wedding commitments. Designed for local, destination, resort, hotel, villa, and all-inclusive weddings, Wedding Wedge helps couples ask better questions, compare options more clearly, and plan with greater confidence.

A smarter second look before you book.
